

Reconfiguring Steel Structures: Energy Dissipation and Buckling Mitigation Through the Use of Steel Foams

Principal Investigators:
Sanjay R. Arwade (University of Massachusetts)
Jerome F. Hajjar (Northeastern University)
Benjamin W. Schafer (Johns Hopkins University)

Technical Report #10-01 A Bibliography of Research into the Manufacture, Processing, and Application of Steel Foam

Authors:
Brooks H. Smith
Stefan Szyniszewski

Date: 12/6/10

Grants: CMMI-1000334, CMMI-1000167, CMMI-0970059

4. Applications

4.1. Progressive Collapse of Steel Buildings

4.2. Biomedical

4.3. Automotive and Aerospace

4.4. Power Plants

4.5. Noise Reduction

4.6. Fire Retardant

4.7. Seismic

Introduction

This document is intended to provide an overview of available literature on steel foam material properties and its applications.

Descriptions of publications are organized by topic. Within each topic, sources are organized alphabetical according to authors.

All listings within each subcategory are sorted by year of publication (newest first), then alphabetically by author.

1. General Metal Foam Sources

1.1. Comprehensive Sources

Oechsner A (2009). *Multifunctional Metallic Hollow Sphere Structures : Manufacturing, Properties and Application*. Springer.

Kremer K, Liszkiewicz A, and Adkins J (2004). "Development of steel foam materials and structures." US DOE and AISI final report. DE-FC36-97ID13554.

Degischer H-P and Kriszt B (2002). *Handbook of Cellular Metals: Production, Processing, and Applications*. Wiley-VCH, Weinheim, Germany.

Torquato S (2002). *Random Heterogeneous Materials: Microstructure and Macroscopic Properties*. Springer, New York, USA.

Banhart J (2001). "Manufacture, Characterisation, and Applications of Cellular Metals and Metal Foams." *Progress in Materials Science* 46:559-632.

Ashby M F, Evans A G, Fleck N A, Gibson L J, Hutchinson J W, and Wadley H N G (2000). *Metal Foams: A Design Guide*. Butterworth Hamilton.

Gibson MF and Ashby LJ (1997). *Cellular Solids: Structure & Properties*. Oxfordshire Press.

1.2. Conferences and Symposia

General citations for proceedings from conferences and symposia. Individual articles referenced from these sources should be separately cited in appropriate sections below.

Stephani G and Kieback B, ed. (2008). *Cellular metals for structural and functional applications : CELLMET 2008*. Proceedings of the International Symposium on Cellular Metals for Structural and Functional Applications, 8-10 October 2008, Dresden, Germany.

Lefebvre L P, Banhart J, and Dunand D C (2007). *MetFoam 2007: Proceedings of the 5th International Conference on Porous Metals and Metallic Foams*. 5-7 September 2007, Montreal, Canada.

Nakajima H and Kanetake N, ed. (2005). *MetFoam 2005: 4th International Conference on Porous Metals and Metal Foaming Technology*. Japan Institute of Metals (JIMIC-4), 21-23 September 2005, Kyoto, Japan.

Stephani G, ed. (2005). *Cellular metals for structural and functional applications : CELLMET 2005*. Proceedings of the International Symposium on Cellular Metals for Structural and Functional Applications, 18-20 May 2005, Dresden, Germany.

Singer R F, Körner C, Altstädt V, and Münstedt H, ed. (2004). *Proceedings of the Symposium on Cellular Metals and Polymers (CMaP)*. Deutsche Forschungsgemeinschaft (DFG), 12-14 October 2004, Fürth, Germany.
